New Carpets and Rugs.

The carpenters have now finished the work of enlarging our carpet room. Our stocks of new Carpets and Rugs are so large that we needed much additional space to handle them. We believe that we now have a Carpet Department that would do credit to any metropolitan store. From the cheapest Hemp Carpet at 9c. to the best of Axminsters at 90c. there is not a roll but will prove of exceptional value for the price asked. We are showing a larger and better assortment of Ingrains and Brussels than ever before. You will find here the very choicest of patterns to select from, and you have the further advantage of seeing just how the carpet is going to look on your floor. We have also an immense stock of Smyrna and Moquette Rugs and magnificent Art Squares. We know that if you will let us supply your carpet wants we will save you money.

Some Rare Shirt Waist Bargains.

We carried over from last season about ten dozen Shirt Waists. Rather than mix them with the new stock we have placed them on a separate counter and marked prices less than cost. The 60c. and 90c. kind are now 50c. Last year's 70c. price has been marked down to 50c. Waists that were lowly priced at 41c. and 51c. are now 30c. There are also a few that were 85c. These 81c. Waists will sell quickly. Come before the best are picked over.

ROSENAU BROS.,

KINGS OF LOW PRICES. PROPRIETORS SEE HIVE

AN OLD-TIME SPORT'S LAMENT.

There ain't no wild West any more, the country's gone to wreck. The good 'ol times of long ago have had to skip the deck.

The "man of progress," as it's called, has come a tremplin' in. An' flung the pious banners from the citadels of sin.

The gospel's knocked the gambler out, like the ready gun. The Bible and the prayerbook have put the clamps on fun.

The organ of the Christian Church has swiped the wintin' cards. An' drowned the fiddle notes to which we used to swing our parls.

The theistic hedonists are no more, their yells no longer true. The fringe from the feathery wings of the automaton.

Their snaky eyes no longer gleam with eagerness to twine. Their fingers in our hair as in the days of 'ol long yins.

Around the reservations now they loaf an' take their ease. Their brocade legs hid in paleface pants quite tawny at the knees.

They while the happy hours away in frequent leary saps. An' keep their cash in motion playin' poker or shootin' craps.

The tenderfoot now strolls about no longer fearing that. Lead protests from smokin' guns may irritate his hair.

For using water on the side to make his whiskies wet. The tenderfoot of the rules of border etiquette. It's come to such a painful pass that men in tailor clothes

Are lookin' at 'em as high esteem an' full respect as those. That wear wool shirts an' canvas duds, with pistols at the side!

I swear it nearly breaks my heart! knocks out my honest pride! The Courts o' law have downed the rope. Judge Lynch has taken legs.

An' left the field to starched chumps with heads like ostrich eggs. An' if a feiler pulls his gun and downs another gent.

It costs a pile o' cash to square the trivial even. An' 'jes' to think! a funeral is now put up to be.

A sad an' serious affair, while in the o' days we would chuck his lateness under ground without a sigh or sob.

And leave him there to rest in peace while he bled his own job. It makes me sore to gaze upon the ruin of a land.

That once in makin' life a joy could play a winning hand. To see pale tenderfoot come in with cranky Eastern views.

Of makin' fancy hitters with the purity of bones. I feel as lost an' out o' place an' short o' nerve said.

As any palated Injun would up in the Promised Land! I would hit the trail, but where in thunder could I go.

Since all the West is ruined by this progress circus show! —Denver Evening Post.

If your watch falls keep good time take to Murphy. His way is warranted.

"Give me a live regulator and I can regulate the world," said a genius. The druggist handed him a bottle of Dr. Williams' Little Blue Pills, the famous little pills. Henry W. Ray, Adjutant Postoffice.

T. C. Campbell, Reg. the well known attorney, was riding out yesterday, and hopes soon to be able to resume practice. He has had a long and serious illness, and his friends are gratified at his restoration to health.

UNCLE SAM AND GREATER AMERICA

FRANK DEVINE of this city has been mentioned for nomination as State Senator. He is a Mason county man, and as Mason county is entitled to name the candidate for the State Senate, he is a strong contender for the choice of the Mason Republicans. But we don't want any dictation from the Vaneburg "Boss."

A good lesson in genuine Americanism and an example which should be generally followed is contained in the announcement of the "dollar dinner" to be given in New York City.

A lesson in Americanism and an example which should be generally followed is contained in the announcement of the "dollar dinner" to be given in New York City. Although the arrangements for this political feast in celebration of Jefferson's birthday are in the hands of Democrats, the fact is simple but abundant merit provided for the occasion a single line, "Domestic Table Waters," which indicates that some body has had the good sense and the patriotism to conspicuously recognize the merits of a class of home products that rightly claim at least equal merit with any that are marketed under foreign labels.

This is an improvement upon a recent political banquet, not given by Democrats, at which the President of the United States and several of his Cabinet officers were guests, and at which, with curious inconsistency, a foreign table water occupied the place of honor. American waters, plain, sparkling and medicinal, are second to none in the world aside from their palatableness and their hygienic qualities, and in giving the native product the preference the managers of the Jeffersonian "dollar dinner" have established a precedent worthy of all commendation.

Maurice Corson, a Pawnee (N. J.) storekeeper, who died a few days ago, bought a quantity of calico during the Civil War, paying 10 cents a yard for it. When the price fell to 5 cents a yard after the war, Corson declared he would not sell a yard of his goods unless he realized a sum equivalent to the cost price. The goods remained on the shelves in Corson's store for thirty-eight years and have just been sold for 2 and 1/2 cents a yard.

WILL BE CONTESTED.

The Claims Presented Against the State by Col. W. W. Baldwin for Many Thousands of Dollars.

FRANKFORT, Ky., April 7.—Attorney Cochran, of Louisville, representing Col. W. W. Baldwin, the "turnpike king," came to Frankfort Thursday to present Col. Baldwin's side of the turnpike fight to the state sinking fund commissioners, who control the state's stock in all corporations. Cochran told the board that Col. Baldwin, as president and manager of the Mayville and Lexington turnpike, has a claim against the state for many thousands of dollars, and that he would like to have a hearing before the board as to the legality and justness of this claim. The board decided to give him this hearing and will next week fix a day for Baldwin to appear and produce evidence as to why the state should pay him the money claimed to be due him.

Judge Bullock, who represents the anti-Baldwin element, says the trouble was precipitated by the refusal of Baldwin to sell the remaining part of the pipe and distribute the proceeds. The case will be bitterly contested.

TOBACCO SETTERS!

One year ago today Tobacco Transplanters sold in Mayville at \$60 because The Price Fighter was not in the tobacco setter business. Today The Price Fighter enters and gently trims the price down to \$42.90. Ah! the picnic is over. Surely this is enough to cause a deep and painful breath. The Price Fighter controls Mason, Bracken and Fleming counties for the latest improved tobacco setting machine—a machine that embodies all the good features of the older style machine, with none of their bad features. It is a machine that is guaranteed to work—a machine that is sold upon its merits. The Price Fighter has contracted for a carload of these machines for spot cash, and after trimming off all the superfluous profit funds that he can sell 'em for \$42.90 and still make his little 10 per cent. He bought 'em right and is in position to undersell the world. Of course competitors will have to offer you some excuse for asking old time war prices. Some will offer the old worn out gag of a better machine, but beware! Poison! Listen: Call and look at the 1800 Tobacco Setter. Examine its improved features. A MIDNIGHT FIRE.

Home of Wallace Andrews, President of the New York Heating Co., Destroyed.

VAIN EFFORTS TO RESCUE INMATES.

Six Bodies Have Been Taken From the Ruins and Other Persons Are Reported Missing.

Several Members of the Family Carried Out Unconscious. The Fire in the Home of the District Occupied by New York's Richest Millionaires.

NEW YORK, April 7.—A few minutes before 2 o'clock Friday morning fire broke out in the fireproof dwelling at No. 2, East 67th street, the home of Wallace Andrews, president of the New York Heating Co. The fire spread rapidly, and when the firemen arrived in response to the first alarm they found the interior of the house all in flames.

The house at No. 4, occupied by Mr. Rothschild, the firemen found it impossible to save the Andrews house and devoted most of their energies to saving the Armour and Rothschild properties. Many minutes both the fire, but the vigilance of the firemen as often put the flames out.

At 3:45 a. m. six dead bodies were taken from the ruins of the Andrews residence, and several other persons are reported missing.

The dead are: Mrs. St. John; Wallace St. John, her son, 7 years old; four unidentified bodies, found on the third floor of the Andrews house.

The missing are: Mr. and Mrs. Wallace Andrews, J. St. John; Austin St. John, 3 years old, his son; Frederick St. John, 3 years old, his son; Mary Baker, kitchen maid; Mary Flanagan, parlor maid; Ann Mary, servant; E. A. Payson, servant; Kate Roth, servant.

The injured: Jennie Bunn, a laundress, jumped from the fourth floor to an extension and was badly injured, taken to Presbyterian hospital; Alice White, servant, taken to the Presbyterian hospital suffering from burns and partly overcome by the smoke; Fireman Jeremiah Blazina, of engine No. 4, fell during the fire and was badly hurt. He was taken to the Presbyterian hospital, in a serious condition. Several other firemen were injured during the battle with the flames, but none of them were seriously able to remain with their companies.

The firemen were unable to get into the Andrews house as late as 3:30 o'clock. The roof then caved in, and the interior was a seething cauldron of fire. Sparks shot high into the air as from a blast furnace, and several of the surrounding mansions were ignited, but in most cases firemen were on the roofs with water and put the fire out in their incipency.

They were not successful in this, however, in the case of the high stone house of Alfred Adams at No. 2, East 69th street. This house was almost directly in a line with the Andrews house but two blocks north. It had no sooner caught than the flames spread with alarming speed.

Fortunately the family had been aroused by the other fire and all were taken out by the police except one unknown woman and Mary Malone, 25 years old, a servant of the Adams. She was seriously burned and may die. She was taken to the Presbyterian hospital.

In the case of the unknown woman a most heroic rescue was effected. The woman appeared on the top of a fourth floor window and was about to jump when the crowd yelled to her to wait.

A policeman ran into the next house, No. 3, and dashed up the stairs to the fourth floor on a level with the imperiled woman.

Leaning far out on the coping he caught her by the arm and with a mighty effort he swung her into the open space and drew her into the room with him. The crowd wildly applauded the policeman's daring. The woman was sent to the Presbyterian hospital.

At 4:30 o'clock policemen went through the Adams house and on the third floor they found the body of one of the servants, Mary McLaughlin, 60 years old. She had been suffocated. Her body was taken to the East 67th street police station.

The finding of this body made three bodies taken out. The other two had been positively identified a few minutes before as the bodies of Mary St. John and her son, Wallace, 3 years old.

In addition to these three bodies, the police know of four more bodies in the building, making a total number of known dead seven.

Policemen Gilmore and Policeman Liedek found Mrs. St. John just as she was dying. She was carried into the Rothschild house where she died within a few minutes.

Mr. and Mrs. Andrews lived on the second floor. Mrs. St. John, her three children, and two servants, Kate Downey and Marie Roth, were on the third floor.

At 4:45 o'clock, Eva Peterson, 32 years old; Ann Neary, 22 years old; Mary Flanagan, 24 years old, and Mary Bolin, 19 years old, all servants, are among the missing.

CRUISER DETROIT. WAS SQUARED.

The Vessel Will Be Sent From Venezuela to Bluefields, Nicaragua, at Once.

WILL PROTECT AMERICAN INTERESTS.

Her Dispatch Under Hurry Orders is at the Urgent Request of the State Department.

Our Diplomatic Representative at Bluefields Instructed to Lodge a Protest With the Nicaraguan Government Against Gen. Torres' Policy.

WASHINGTON, April 7.—The cruiser Detroit, which is now lying off La Guayra, Venezuela, has been ordered post haste to Bluefields, Nicaragua, for the protection of American interests in that quarter. On the way she will touch at Port Limon, Costa Rica, where her commander will put himself in communication with the United States consul at that point and where he also may receive further instructions.

She is also likely to make a very brief stop at Keytown, after dispatching under hurry orders is at the urgent request of the state department, to which American residents both at Bluefields and in Costa Rica have appealed for protection of American interests. The arbitrary and extortionate policy adopted by Gen. Torres at Bluefields, who on more than one occasion has made himself persona grata to this government, and whose restoration to power at this time has been followed by acts which American residents resent protest against, is the main line of the vessel's dispatch. The state department at the same time has cabled instructions to the United States diplomatic representative at Bluefields to lodge an energetic protest with the Nicaraguan government against the action of Gen. Torres, and a disregard of this protest will be followed up by a more positive step on the part of this government. In Costa Rica the American business interests and residents are in trouble as a result of an insurrectionary movement. It is understood that the insurgents are levying forced loans on them, besides expropriating their property and levying duties on imports.

NEW ORLEANS, April 7.—A letter to the Picayune from Bluefields, Nicaragua, dated March 31, says:

Advices received from the agent of President Zelaya, yesterday again notified the merchants they would have but 24 hours to again pay the duties which had been paid to Zelaya. The Nicaraguan government, which served after the revolution began, Torres also undertook to prohibit the American consular agent from cabling to Washington or the president of the United States.

He is in charge of the telegraph wires which lead to both the capital and to San Juan del Sur, the cable station. The American consul, after discovering the situation, declined to state what steps would be taken to force the American merchants to submit to double charges.

ALGER WILL RESIGN.

He Feels that He Has Been Vindicated by the War Investigation—Gen. Hastings to Succeed Him.

WASHINGTON, April 7.—Believing that the finding of the beef court of inquiry will relieve him of any personal connection with whatever mismanagement or malfeasance may have been discovered, it is now said that Secretary Alger will retire from the cabinet soon after the report of the investigation committee was sufficient vindication.

Thursday night a close friend of the administration says the war secretary's portfolio, upon the retirement of Secretary Alger, will be tendered formally to Gen. Russell Hastings, of Massachusetts, whom he will accept. The doctrine of probabilities seems to favor this statement. Gen. Hastings has been a guest at the white house for some days, having come to Washington soon after it was officially announced that he had been selected as the new director of the bureau of American republics.

Slit While Taking a Snap Shot.

Philadelphia, Pa., April 7.—Samuel M. Graham, well known throughout Central Pennsylvania, was instantly killed near this place Thursday while attempting to get a kodak picture of a large sturgeon, which was about being blown out of the ground with dynamite, a silver striking him on the neck and nearly cutting his head from his body. He was a member of the firm Graham, Reed & Co.

The First Rebellion in the Island of Negros is Promptly Put Down.

A MURDEROUS GANG PUT TO FLIGHT.

The Bandit Chief, Papisaiso, Called on the Natives to Exterminate All the Foreigners.

The Rebels Near Manila Remained Perfectly Quiet. A Week's Respite From Hostilities Given Them to Allow Time to Digest Proclamations.

MANILA, April 7.—Col. Smith, the governor of the island of Negros, reports that a number of bandits, headed by a man named Papisaiso, attempted a rebellion on March 27, and killed several officers of the army. He also captured other officials and issued a proclamation calling upon the natives to rise and exterminate the Americans and Spaniards. Maj. Hime and two companies of the California regiment were dispatched by water to the scene of the disturbance, and Col. Daboe and two other companies of troops were sent overland. On April 2 the force marched 12 miles and captured Lazido, the headquarters of the bandits, and destroyed the town. The troops also captured 25 prisoners and scattered Papisaiso's forces, thus effectually quelling the rebellion at the outset.

There has been a week's respite in the hostilities, chiefly in order to allow the Filipinos to digest the proclamation of the United States commission. The rebels remain remarkably quiet. The sharpshooters of Gen. Lawton's unit have borrowed the Filipino tactics and are harassing the rebels at night, picking off some of them nightly.

Malolos is resuming its natural aspect. Business is going on. Preparations are being made to establish a permanent camp for the troops there and the soldiers are cleaning the city.

A third of the American forces at Malolos is sent nightly to form an advanced line a mile north of the city, with patrols and sentries ahead of the line.

Gen. MacArthur's volunteers are receiving Krag-Jorgensen rifles, the Filipinos having discovered that they could effectively empty their Mauser rifles and retreat before the Americans approached near enough to use their Springfield rifles with effect.

Advices received here from Samar, an island forming a province of the Philippines, say the revolutionists there are weary. Their leader, Gen. Lukban, of Chinese ancestry, has declared that he and the rebels are desirous of American rule.

THE REBELS IN COSTA RICA.

They Are Abusing Americans and the Government Has Been Ordered There to Straighten Matters.

WASHINGTON, April 7.—The Detroit, now at La Guayra, has been ordered post haste to Costa Rica. The American business interests and residents there are in trouble as a result of the insurrectionary movement in progress. It is understood that the insurgents are levying forced loans on them, besides expropriating their property and levying duties on imports, and the state department has been appealed to.

The department has also been vigorously in the interest of the American residents at Bluefields.

The United States diplomatic representative at Bluefields has been instructed to lodge an energetic protest with the Nicaraguan government against the arbitrary and extortionate action of Gen. Torres, and this will be followed up by more substantial action if the protest is disregarded.

MURDER IN THE CITY HALL.

Butcher Tidwell Stabs to Death Plumber George E. Mason, Co.—They Quarreled Over Tidwell's Sister.

MAISON, Ga., April 7.—Gus Tidwell, a butcher, was stabbed to death here Thursday by Charles Burger, a plumber. The crime was committed in full view of 30 policemen, numerous shoppers and citizens and created the greatest excitement. The murder was done near the entrance to the city hall, where the victim and his slayer met, both having been summoned to the police court for fighting Wednesday night about the murderer's sister, the same mother that actuated the fatal assault Thursday.

Slit While Taking a Snap Shot.

Philadelphia, Pa., April 7.—Samuel M. Graham, well known throughout Central Pennsylvania, was instantly killed near this place Thursday while attempting to get a kodak picture of a large sturgeon, which was about being blown out of the ground with dynamite, a silver striking him on the neck and nearly cutting his head from his body. WILKESBARRE, Pa., April 7.—Terrence Anderson, of Plymouth, who was demoted, committed suicide Thursday by jumping down a 600-foot shaft of the Delaware and Hudson mine.

TWO NEGROES LYNCHED.

They Were Charged With the Murder of a Stock Farmer Living Near Brooksville, Miss.

BROOKSVILLE, Miss., April 7.—Two Negroes, Forest Jamison and Mose Anderson, were lynched Thursday by a mob for the murder of T. H. Cleland, a stock farmer who lived 12 miles east, was found dead in his room. An investigation was made and an inquest held, resulting in a verdict of manslaughter. Guilt was soon placed upon two Negroes who were living on the farm and with whom Cleland recently had trouble. Forest Jamison, one of the Negroes, confessed that he choked Cleland to death, while another Negro, Mose Anderson, held the victim's feet. At noon Thursday a posse of 200 determined citizens secured possession of the two Negroes, quietly lugged them to a tree. They were then dispersed in an orderly manner.

VICE PRESIDENT HOBART.

His Condition Was a Trifle Better Tuesday Night. Physicist Visits Him Twice a Day.

WASHINGTON, April 7.—Vice President Hobart was a trifle better Thursday night. He rested easily throughout the day and was benefited by it, though he had not rallied yet from his relapse of several days ago. He is now in a condition when he will be about again. He is still kept in bed and every effort is making to have him take the complete quiet and rest that are essential to his recovery. His physician is now visiting him twice a day instead of once as before his recent set-back. Aggravated indigestion, an annoying cough and general weakness have made the vice president's case a rather serious one.

President McKinley makes daily inquiries concerning him and sends flowers to the sick man.

BROOM CORN TAKES A JUMP.

A Rise of Ten Dollars a Ton, Attributed, It Is Said, to the Combining of the Broom Corn Interests.

CHICAGO, April 7.—Broom corn took a jump of \$10 a ton here Thursday. The immediate cause of the advance, attributed by some indirectly to the combination of the broom corn interests recently formed in this city, was the raising of the price by the Central Illinois Broom Corn association, which met at Charleston, Ill. Dealers from Chicago, Kansas City and St. Louis were present at the proceedings and were governed by a reported shortage of the supply. Another meeting will be held in May, when a further advance will be considered. It is said the trust has a corner on all the available stock.

The Girls Captured.

CHILLICOTTE, Mo., April 7.—All the girls who participated in the riot at the Industrial Home for Girls have been captured and the ring leaders have been locked in their rooms to prevent further trouble. The riot is thought to have been incited by outsiders. Some of the girls say that an attorney told them that if they would have a successful riot the home would be abolished.

CHARGE OF CLIMATE WON'T CURE CONSUMPTION

The Slocum System is Needed.

A Curative Medicinal Treatment Founded on Modern Scientific Truths is More Potent Than Air Alone.

FREE TREATMENT FOR LUNG WEAKNESS.

If those of our readers who reside in the most highly favored sections of this country, where the climate is healthy and invigorating, with a dry and tonic atmosphere, will look about them they will see a greater or less number of their friends and neighbors dying of consumption, while many others have already been carried off by that dread malady.

These deaths have occurred from time to time amid the refreshing prairie breezes of summer, in the fair and mellow days of autumn, and also in the dry and sunny seasons of a southern winter.

Such deaths amid such favorable surroundings afford positive and convincing proof that climate alone will not cure consumption; that neither pine-needle breezes nor bracing mountain air will restore weak lungs or build up a constitution that is being undermined and broken down by the insidious germs of a fatal disease.

But, on the other hand, many thousands of testimonials from grateful people all over this country, who have been cured by the Dr. Slocum System of Treatment, and are today in the enjoyment of perfectly restored health and strength, afford the most convincing evidence that this treatment, aided by such favorable climatic conditions and surroundings, is a positive cure for Consumption and all other chronic diseases of the Throat, Chest and Lungs.

Therefore, those who go to the mountains, the seashore or to southern climes in the hope of curing their consumption, should not fail to take the Dr. Slocum System of Treatment if they wish to derive the full benefits of favorable climatic conditions and scientific medicine.

The Dr. Slocum System of Treatment (consisting of Four Preparations) is both medicine and food. The medicines used in it slay the cough and lung irritation, heal the soreness and subdue the pains in the throat, overcome shortness of breath, improve the digestion and bring comfort, rest and refreshing sleep, while its food properties are building up the constitution, enriching the blood and infusing the sufferer with new life and vigor.

No single remedy will accomplish all this, but the Four Remedies embodied in the Dr. Slocum System of Treatment are building up the constitution, and have been devoted to perfecting this System of Treatment, every indication, every symptom of Consumption and other diseases of the Throat and Lungs, has been carefully studied in the development of this system.

Complete Free Course of Treatment, Consisting of Four Preparations, Formule of Dr. Slocum.

Write the Doctor.

Simply write, giving your full name, postoffice and express address, to Dr. T. A. Slocum, Laboratories, 40 and 42 Pine Street, New York City, stating that you wish the course of treatment, when the FOUR FREE PREPARATIONS will be sent you, together with free advice adapted to your case.
